

AirMini™

Convenient control with the AirMini App

ResMed's AirMini App lets you control your AirMini using selected smart devices. Simply download the app, connect via Bluetooth and enjoy access to a range of comfort settings that may help you get a restful night's sleep. The AirMini app also provides you with your 30-day therapy history and daily sleep score each morning, so you can track your progress and schedule in goals for greater success.

1 Based on volume comparisons done by ResMed internal testing prior to the time this piece was printed.
2 Currently available for selected full face, nasal and nasal pillows masks.

Enjoy the benefits of therapy at home or while you're away

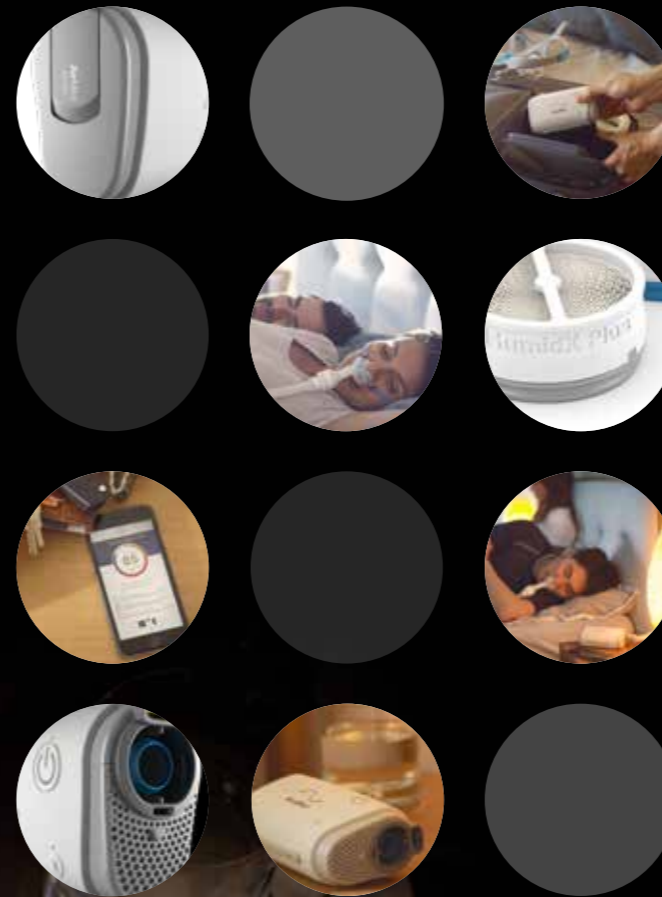

As a CPAP user, you know how important sleep therapy is to feeling your best each and every day. That's why we created AirMini – a revolutionary CPAP device that is suitable for use at home or while you're away. Thanks to AirMini's small size and portability, you'll never have to choose between therapy performance and freedom again.

The smallest device from a trusted leader

As an industry leader, we're proud to introduce the world's smallest CPAP device¹, which is engineered to deliver the same quality of therapy people have grown to trust from ResMed over the past 25 years. Whether you're a new or experienced user, the pocket-sized AirMini combines advanced algorithms with the latest technology innovations like HumidX™ waterless humidification² designed to deliver a comfortable therapy experience.

A new contemporary design

AirMini is sleep therapy as it should be – sleek, modern, and compact with smart technology. Experience a new level of confidence with a design that sits discreetly in your bedroom or neatly packed away when you travel. It's an experience that's all yours, and that's just the beginning.

Masks designed for you

AirMini has been designed to work with our latest AirFit™ and AirTouch™ series masks. You can choose from a range of full face, nasal and nasal pillows options – each designed to deliver optimal sleep therapy wherever you sleep.

AirFit and AirTouch series

Silicone and foam masks designed to fit different facial types.

Compatible masks include:

AirFit P10 for AirMini AirFit N20* AirFit N20 Classic
